

## **+16dB Slope Equalised Line Amplifier**

TVRO16N-PRO

### **Description**

The Global Professional +16dB slope equalised Line Amplifiers are high quality amplifiers ( with DC Pass) for the professional user. The product is housed in our standard EMI enclosure and is CE approved.

TVRO 16N compensates for 50 Metres of cable loss.

### **Specification**

L Band and Frequency Pass	950 - 2150 MHz
Gain @ 950MHz	+11dB
Gain @ 2150MHz	+16dB
Variation	+/- 1dB
Max. Distortion Free Output ( -35dB C/I ) 2 Tone	-15dBm 93dBuV
Current Passed	500mA
Current Comsumed	< 50mA
Connectors	N Type 50 Ohm Female ( standard ) BNC, TNC, SMA & F Type options available
Dimensions	56 x 35 x 25 mm
Mounting Dimensions	47mm x 26mm ( M3 )
